- HTML and CSS
- PHP
- SQL ,MySQL and MongoDB
- web development
- Mobile developmentP

ABOUT ME

I am a Software Developer with over 1 years of experience working on real-world projects. Throughout my career, I have gained expertise in ASP. Net, Flutter, Reactjs and Node.js, these are technologies that I have used to develop a wide range of applications. I have a strong track record of delivering high-quality software on time and within budget, and I am skilled at working collaboratively with cross-functional teams. In my previous roles, I have successfully delivered projects ranging from cross-platform mobile apps to server-side APIs and web applications, and I am always looking for new opportunities to apply my skills and knowledge to solve challenging problems
